New Submission Guidelines for Medicare Dual Eligible Claims

In accordance with direction from the Centers for Medicare & Medicaid Services (CMS), providers only need to submit claims for dual eligible members once to CMS for processing, and are no longer required to submit secondary claims to Prestige Health Choice (Prestige). This means CMS will automatically forward claims to Prestige for members who are dually eligible for both Medicare and Medicaid coverage.

Please note: If a provider submits a claim for a dually eligible member that CMS has already forwarded to Prestige, Prestige will deny the provider-submitted claim as a duplicate claim.
